

Traveling this Summer?

If you are going away this summer and plan on using your Riverside Debit or Credit card, please call us ahead of time so your card does not become restricted when used outside your normal location! Riverside Debit Card users can also download the CardValet app and set your location settings manually. You can also set alert for transaction amounts, retailer types, and turn your card on or off if you are traveling or misplaced your card. The power is yours with this app!

Available on Google Play or iTunes.
